Informed that they had passed the following, to wit:

Resolved, That the Committee on Police be instructed to inquire and report on the expediency of modeling the Fire Department in the City, so as to embrace the following principles, viz:

1st. The Department to consist of twenty Fire and Hose Companies, in suitable proportions of each.

2nd. That each Company consist of 20 or 25 able bodied men, in the prime of life, and of good moral character, to be annually elected by Councils, subject to be dismissed at any time on failure of duty.

3rd. That the members of the Companies so to be formed, be paid a reasonable compensation for their services; that they be constituted police men and conservators of the public peace; thus forming an efficient police establishment of from 400 to 500 men; into which body the existing watch and police departments might be merged, not merely for

economy, but for unity of action, to be called into service at any time, day or night, as occasion may require.

4th. That in addition to one person, to be designated by the Companies respectively, and approved by Councils, to officiate as Engineers, Councils shall elect one Engineer in Chief with suitable Aids, to have command of the whole.

5th. That to give effect to this arrangement, Councils do purchase, from the existing Fire Engine and Hose Companies of the city, the requisite number of Fire Engines and Hose Carriages, together with apparatus, provided they can be obtained at reasonable prices, and if not, that measures be taken, otherwise to supply the deficiency.

6th. That the Fire Department, so to be created, be placed under the control of the Mayor of the city, who shall be authorized to command the services of the members, under such restrictions and regulations as may be provided by Ordinance.

Whereas, The President, Managers and Company of the Schuylkill Navigation Company to secure the payment to Stephen Girard of the sum of two hundred and thirty thousand eight hundred and fifty dollars, with interest, by indenture bearing date the 18th day of February, 1823, did mortgage and pledge unto the said Stephen Girard, his heirs and assigns, all the lands, tenements, hereditaments and real estate of the said President, Managers and Company of the Schuylkill Navigation Company, whatsoever and wheresoever situate, and all and singular the dams, water and water power to them belonging and already created, or which in the prosecution of their works might be created, and all and singular the rents, reservations and payments to them already reserved and payable, or which might thereafter be reserved and made payable upon the sale, lease, grant or conveyance of any water power, right or privilege of them the said President, Managers and Company; and also all and singular the tolls thereafter to be received by them for the

navigation of their or any of their locks, canals or waters. Together with all the rights, privileges, leaseholds, immunities and appurtenances or any part thereof belonging or in anywise appertaining, as by reference to the said indenture of mortgage, recorded in the office for recording deeds, &c., in Philadelphia, Chester, Schuylkill, Montgomery and Berks counties, will appear.

And whereas, The said President, Managers and Company, &c., to secure the payment of the further sum of two hundred and fifty thousand dollars to individuals who had loaned to the said President, Managers and Company that amount, with interest, did by indenture bearing date the 29th day of November, 1823, mortgage and pledge unto Edward Burd, James C. Fisher and John Bohlen, their heirs and assigns, in trust for the security of the lenders of the said sum of two hundred and fifty thousand dollars, all the before described and mentioned premises, subject to the before mentioned mortgage to Stephen Girard, as by reference to the same, recorded in the office for recording deeds, &c., in Philadelphia, Chester, Schuylkill, Montgomery and Berks counties, will appear.

And whereas, Stephen Girard, in his life time, loaned to the said President, Managers and Company, the sum of thirty-five thousand dollars, part of the last mentioned sum of two hundred and fifty thousand dollars, which was secured as aforesaid.

And whereas, The Mayor, Aldermen and citizens of Philadelphia, by the last will and testament of Stephen Girard, have become the owners of, and now own the mortgage debt and security first above recited, and the debt of thirty-five thousand dollars secured by the last mentioned mortgage and the security therefor.

And whereas, The said President, Managers and Company, by the conversion of said loan into stock, and by cash payments, have reduced the loan secured by the last mentioned mortgage to the sum of thirty-five thousand dollars, which is owned by the Mayor, Aldermen and Citizens of Philadelphia, as above recited.

And whereas, The said President, Managers and Company, have requested the Mayor, Aldermen and Citizens of Philadelphia, to release from the lien of the said mortgages, the property hereinafter described, and have offered to pay to the said The Mayor, &c., the sum of eight hundred dol-

lars, the full value thereof, and agreed that the same shall be applied in part payment of the said last mentioned loan: Therefore

Resolved, That upon the payment of eight hundred dollars to the Treasurer of the Girard Fund, the Mayor be authorized on behalf of The Mayor, Aldermen and Citizens of Philadelphia, to enter into a covenant with The President, Managers and Company of the Schuylkill Navigation Company, that The Mayor, Aldermen and Citizens of Philadelphia, will not themselves nor will they require the Trustees before mentioned, to take out or execute any execution or other final process or proceeding in law by virtue of the before recited mortgages, on, for or against the following described premises, so as to affect the sale thereof, viz: A certain lot or piece of ground, situate on the north-easterly corner of Main street and Grape street, in Manayunk, in Roxborough township, in the county of Philadelphia; beginning at the aforesaid corner of Grape and Main streets; thence extending by the said Grape street north twenty-eight degrees, east two hundred feet to Cresson street; thence extending on the said Cresson street south sixty-two degrees, east fifty feet; thence extending by ground late of Jacob Norton, now of William Rowley, south twenty-eight degrees, west two hundred feet to Main street aforesaid; thence extending by the said Main street north sixty-two degrees, west fifty feet to the place of beginning. *Provided*, that the said covenant shall not affect, alter or diminish the lien of the said mortgages for the whole sum due thereon on the other remaining parts of the premises granted and described in the said before mentioned indentures of mortgage, nor the power to take out execution in conformity with the said mortgages, and to proceed thereon for the sale of the said other parts.

Which was read.

On motion—

Council proceeded to the second reading of the resolution.

When the same was agreed to.

APPENDIX

TO THE

JOURNAL OF THE COMMON COUNCIL.

APPENDIX, No. I.

The Committee appointed at the last meeting to take charge of the unfinished business of the late Council,

REPORT—

That upon an examination of the Journals of the late Council, the following items appear to require the attention of the present Council.

1. A Resolution passed by the Select Council, "That the Police Committee be, and they are hereby required to examine into the expediency of forming a Fire Police," which was sent to this Council on the 29th February last, and the further consideration thereof postponed.

2. The Joint Committee to consider the expediency of organizing a new system of Police, and to confer with the authorities of the adjoining districts.

3. The Resolution passed by this Council relative to paving certain streets with blocks of hammered stone, concurred in by the Select Council, with an amendment, the further consideration of which was, in this Council, on the 26th September last, postponed.

The Committee respectfully suggest that the first item be referred to the Joint Special Committee on organizing a new System of Police.

The second item having been acted on by this Council at their last meeting requires no further notice.

And that the third item be recommitted to the Committee on Public Highways.

The Committee therefore submit the following Resolutions.

October 24th, 1844.

GEO. CAMPBELL,
HENRY C. CORBIT,
J. E. HAGERT.

Resolved, That the Resolution passed by the Select Council, relative to the expedience of forming a Fire Police, the consideration of which was by this Council, on the 29th February last, postponed, be referred to the Joint Special Committee on Police.

Resolved, That the Resolution and Amendment adopted by the Select Council, relative to the paving of certain streets with hammered stone, the consideration of which was, on the 26th September last, in this Council, postponed, be referred to the Committee on Public Highways.

APPENDIX, No. II.

To the Select and Common Councils:

The Committee on Public Highways

REPORT—

That they have had under consideration the petition of the owners of property on Spruce street, between Tenth and Eleventh streets, asking that the wooden blocks in said street may be replaced with cubical stone blocks. The Committee deem it inexpedient to repave the street in the manner requested by the petitioners; but as it is in an unsafe condition and requires immediate attention, they recommend that it be paved in the usual way with pebbles, and annex a Resolution authorizing the same.

The Committee further Report, that to enable the Commissioners to pave this street and others which Councils have authorized, (which they think absolutely require it,) a small additional appropriation to this Committee will be

necessary, and they ask the passage of the annexed Bill providing therefor.

HENRY C. CORBIT, *Chairman*.

A. J. LEWIS,
T. C. ROCKHILL.

Phila., Oct. 24th, 1844.

An Ordinance making a further Appropriation to the Committee on Public Highways for the year 1844.

SECTION I. *Be it ordained and enacted by the Citizens of Philadelphia, in Select and Common Councils assembled*, That the City Treasurer be, and he is hereby directed to place to the credit of the Committee on Public Highways, the further sum of thirty-five hundred dollars, for the service of said Committee for the year 1844.

Resolved, That the City Commissioners, under the direction of the Committee on Public Highways, be directed to cause Spruce street, between Tenth and Eleventh streets, to be repaved.

APPENDIX, No. III.

An Ordinance making a further Appropriation to the Committee on Public Highways.

Be it ordained and enacted by the Citizens of Philadelphia, in Select and Common Councils assembled, That the further sum of fifteen hundred dollars be, and the same is hereby appropriated to the Committee on Public Highways for the service of said Committee for the year 1844.

APPENDIX, No. IV.

PHILADELPHIA, November 21st, 1844.

To the Select and Common Councils:

The Committee on Police, to whom was referred the communication from a committee appointed by the Volunteer Corps of National Guards, asking Councils whether it is necessary for the companies accepting the Ordinance of July 11th, 1844, to adopt the United States dress to entitle them to their portion of the appropriation; and also a copy of the proceedings of a meeting of several volunteer companies upon the same subject,

REPORT—

That they have given the subject above referred to that consideration which its importance seemed to require; they have examined the Ordinance of July 11th, 1844, and find that it does not prescribe any particular kind of dress to be worn by the troops that may be mustered under it. Brigadier General Cadwalader being the disbursing officer under the Ordinance is alone responsible to Councils for the proper and legal disbursement of the fund paid over under the same. The City Treasurer, under the direction of Councils, having paid to the proper person the whole sum of money agreeably to the report of Brigadier General Cadwalader, made to Councils on the 26th of September, in conformity to the Ordinance of July 11th, 1844, Councils have performed in good faith their part of the Ordinance; it is now the duty of others to direct the legal application of the same. They therefore offer the following Resolution.

Resolved, That the Committee be discharged from the further consideration of the subject.

J. E. HAGERT,
JACOB SENNEFF,
SAUNDERS LEWIS,
T. C. ROCKHILL,
JOHN TRUCKS,
WILLIAM MORRIS.

APPENDIX, No. V.

To the Select and Common Councils:

The Committee on Public Highways, to whom was referred the Memorial of Michael McMacken, asking compensation for alleged damage to his property at the corner of Pine and Dugan streets, in consequence of an alteration in the grade of said streets,

REPORT—

That after having examined the premises and given due consideration to the subject, they are of opinion that it is inexpedient to grant said claim, and recommend the adoption of the annexed Resolution.

The Committee further Report, for the information of Councils, that the Wardens of the Port, and a majority of the adjoining Districts, having assented to the provisions of the Act of Assembly, passed April 24th, 1843, and An Ordinance, passed July 6th, 1843, by which it is made lawful to extend the Wharves into the river Delaware fifty feet eastward of the former line, the City Solicitor has caused a record of the same to be made in the Court of Quarter Sessions, and said line is now established.

ALGERNON S. ROBERTS,
ANDREW R. CHAMBERS,
T. C. ROCKHILL,
A. J. LEWIS,
SAUNDERS LEWIS,
G. SCULL.

Philada. Dec. 5th, 1844.

Resolved, That it is inexpedient to grant the request of Michael McMackin for compensation for alleged damage to his property at the north-west corner of Pine and Dugan streets by the regrading of said streets, and that the Committee on Public Highways be discharged from the further consideration of the subject.

APPENDIX, No. VI.

*Philada. Dec. 19, 1844.**To the Select and Common Councils:*

The Committee on Police, to whom the Preamble and Resolution of the 5th instant, touching the action of Brigadier General Cadwalader, as regards the Ordinance of July 11th, 1844, was referred, respectfully

REPORT—

That they have had under consideration the matter embraced in the Preamble and Resolution above referred to, and after a full investigation of the subject, they find that it was required by the Brigadier General and agreed to by the Companies whose Muster Rolls were returned to Councils on the 26th of September, that the outfit and equipment to be purchased under the Ordinance should be in conformity to the Laws of Pennsylvania; the Committee are therefore of the opinion, that such Companies are bound by every principle of honor to adhere to the conditions of the contract; but as there appears to be a difficulty as regards the meaning and intention of the Law upon the subject, and the Legislature, in the 60th section of the Militia Law of 1822, having very wisely provided a remedy for all disputed cases of a military character, in which doubts exist as to the proper construction of the Act, in the following words: "That when any doubts shall exist as to the construction of any part of that Act on a military subject, it shall be the duty of the Adjutant General to take to his assistance two General Officers, and they, or a majority of them, shall decide thereon; which decision shall be conclusive as to the construction of said Act, and shall be so recorded by the Adjutant General, in a book to be kept by him for that purpose; and a copy thereof, certified by the Adjutant General, shall always be legal evidence of the same;" and as military tribunals are certainly the proper ones to settle disputes of a military character, the Committee recommend that the subject be referred to the Adjutant General. Therefore

Resolved, That the Committee be discharged from the further consideration of the subject.

APPENDIX, No. VII.

Philada. Dec. 19, 1844.

To the Select and Common Councils:

The Committee on Police respectfully

REPORT—

That of the amount expended by the Committee of the Special Appropriation of May last, for suppressing the Riots of May and July, they have presented two separate accounts to the County Commissioners, with a demand for $12922\frac{9.5}{100}$ dollars, which formed that part of the expenditure which seemed but just and proper should be borne by the whole County. The first claim, amounting to $2754\frac{8.1}{100}$ dollars, was approved by the County Board on the 4th of June, which sum, we are assured by the County Commissioners, will be paid to the City Treasurer, in all next month. The other of $10168\frac{1.4}{100}$ dollars, having been but recently presented, has not as yet been submitted to the County Board, neither can it be until after the adjournment of the Legislature, at which time the Committee have the assurance of the County Commissioners that it shall be attended to. And after having paid sundry other bills that were not properly chargeable to the County, they find an unexpended balance standing to the credit of the Committee of the Special Appropriation of May last of $3777\frac{1.4}{100}$ dollars. They offer the following Resolution:

Resolved, That the City Treasurer be directed to place to the credit of the General Appropriation Account the unexpended balance, amounting to $3777\frac{1.4}{100}$ dollars, of the Special Appropriation to the Committee on Police of 16th May, 1844, for the suppression of Riots.

Chair. Com. on Police.

Sir,—I have the honor to transmit to you, enclosed, a statement of the cost of Ammunition which has been purchased by me for the use of the City of Philadelphia, at the request of the Committee on Police, under the Ordinance of 11th July last.

I have endeavoured to reduce the amount as much as I possibly could, having a due regard to the object contemplated, of furnishing a sufficient supply of ammunition for any emergency. The greater part of this amount has been already expended by me. The items referred to under the head of sundries, and for packing boxes, &c., may vary a little upon a final settlement of my account, but it will not be much. It will be observed that the amount is about eight hundred dollars less than the original estimate.

I remain sir, very respectfully, your obt. svt.

An Ordinance relating to Water Street.

SECTION 1. *Be it ordained and enacted by the Citizens of Philadelphia, in Select and Common Councils assembled,* That the Committee on Public Highways be, and they are hereby authorized and directed to pay to Abraham S. See, the sum of three hundred and sixty-two dollars and fifty cents, which said sum he has agreed to accept as compensation for injury done to his property situate on the east side of Water street, commencing at a point forty feet distant from the north side of Sassafras street, extending in front on

said Water street northward thirty-two feet two inches, by taking a portion thereof from the front on Water street by the laying out of Water street anew.

SECTION 2. That the sum of three hundred and sixty-two dollars and fifty cents out of the income of the fund appropriated under the 22nd item of the Will of Stephen Girard, for the improvement of the eastern front of the City and Delaware Avenue, be appropriated to the expense of carrying into effect this Ordinance, to be paid in the manner that appropriations for Delaware Avenue are directed to be paid in the several Ordinances relating thereto.

APPENDIX, No. IX.

To the Select and Common Councils:

The Committee on Police respectfully submit the following Estimate, showing the amount of Appropriation required to defray the expenditures of the Police Department for the year 1845.

1st. Pay of watchmen and night police, rents of station houses, fuel for ditto,	\$63,021 00
2nd. Pay of day police, including clerk of police, and clerks of markets,	13,966 00
3rd. Gas, oil, lamps and lamp posts,	37,975 00
4th. Miscellaneous—including cost of destroying dogs, rewarding persons active in bringing offenders to justice, carpenters' and bricklayers' work and materials, prison carriage and horses, &c.,	5,450 00
	<hr/>
	\$120,412 00
Deduct unexpended balance of 1844, \$9,237 54	
Less outstanding bills,	700 00
	<hr/>
	8,537 54
	<hr/>
	\$111,874 46

In preparing the above estimate, regard has been had to a proper economy, and the Committee take pleasure in the fact that although it is about *two thousand two hundred dollars* less than the Annual Appropriation for the year which has just expired, they have no doubt the total sum

will be sufficient to defray all the pecuniary demands upon the Department during the present year.

APPENDIX, No. X.

The Committee on Legacies and Trusts, in compliance with the provisions of the Ordinance passed October 1st, 1835,

REPORT—

That by the Ordinance of May 21st, 1840, the sum of eight thousand seven hundred dollars was directed to be placed under their control, for the use of the Fire Engine and Hose Companies of the City, as therein provided. The provisions of the Ordinance, relating to the Fire Department, passed January 4th, 1844, requires, that the Companies shall, at the first Stated Meeting of Councils in January, nominate their Engineers.

The Committee are, therefore, unable at this time to state how many of the Companies will qualify themselves to participate in the Appropriation; but in case the whole shall make their nominations, and be otherwise entitled, the above sum will be required for the present year, \$8,700

The Committee think it their duty to state, that further attention and care ought to be given to the situation and condition of the Boudinot lands, in Centre county, either by the appointment of a competent Agent, or a visit of inspection by the Committee, or a part of them—they will therefore ask an Appropriation, for this purpose, of the sum of 200

They will also require, for incidental expenses, in carrying out the duties of the various trusts under their care, the further sum of 75

\$8,975

All which is respectfully submitted.

APPENDIX, No. XII.

To the Select and Common Councils of the City of Philadelphia:

The Building Committee of the Girard College for Orphans, in submitting their twelfth Annual Report, congratulate Councils on the happy termination, within the past year, of the suit long pending in the Supreme Court of the United States, brought by the heirs at law of the late Stephen Girard, to obtain from the Mayor, Aldermen and Citizens of Philadelphia the munificent bequest made to that corporation, in trust, by that individual. With entire unanimity the Judges of the highest civil Court known in our land have confirmed and established the trusts created by Mr. Girard, and the right and authority of the corporation of our city, as his trustee, to hold and execute them. With this sanction, it is the unquestionable duty of that trustee who voluntarily undertook and continues to hold those trusts, to carry them fully into effect, in accordance with the intentions of him by whom they were created.

Not unmindful of these high considerations have your Committee been in their endeavours during the past year to carry forward, with as much rapidity as the means within their control would allow, the important work committed to their charge. Within that period the southern portico of the main college edifice has been completed, except fluting a portion of the columns, which is now in progress, and considerable advance made in constructing the portico at its northern extremity.

The excellence of the material used and the quality of the work done within the past year, will not suffer, it is believed, by comparison with either material or workmanship of previous years.

From a southern position, the spectator may now obtain a foretaste of the architectural proportion and classic beauty which will be exhibited by the main college edifice when it shall have been completed, presenting with its surrounding buildings, as it then will, to all who view it, a well provided asylum, wherein at the same time hundreds of "poor male white orphan children" may partake of the benefits of knowledge and the blessings of a sound education—a merited monument of the beneficence and wisdom of its founder—an enduring evidence of the liberal policy of the City of Phila-

delphia, his residuary legatee and agent in carrying his intentions into effect—and a gratifying proof of the taste and skill of her native architects and builders.

Your Committee bear willing testimony to the zeal and fidelity of the Superintendent, Mr. Highlands, and the industry and good conduct of all persons employed about the College; and they are much gratified in being able to report that no casualty has occurred within the year by which any one of them has been injured.

The engagement of Mr. Walter, the Architect, in the construction of an important public work abroad, as announced to Councils in the last Annual Report of the Committee, has not yet terminated. During his sojourn of a few weeks in this city, in the early part of the past autumn, his visits were frequent at the College, and the Committee had the pleasure on several occasions of his company and the benefit of his counsel. The arrangements made previous to his engagement abroad, were such as to prevent injury or inconvenience in progressing with the buildings during his absence. The Committee trust, however, that ere long his foreign labours will have ceased, and that his time and talents will be employed in carrying forward the College to speedy completion.

On the 1st of January, 1844, there remained of the appropriation of the previous year an unexpended balance to the credit of the Committee amounting to	\$6,121 16
Add appropriation of 1844,	75,000 00
Making a total of	<hr/> \$81,121 16
as the entire sum subject to the control of the Committee during the past year.	
Within that period the expenditures of the Committee have been	65,978 60
Leaving a balance of	<hr/> \$15,142 56

Of this sum a portion will be required to pay for fluting the columns of the southern portico, now in progress. The remainder has been appropriated to the payment for marble ordered, to be delivered as early as the navigation of the Delaware and the means of the Contractors will allow, so that active operations may be commenced at an early period in the spring. In the absence of such an arrangement, much inconvenience and delay have been experienced on previous occasions.

For a detailed statement of the work done during the year 1844, and the quantity and description of material now unused at the College, the Committee refer to the Report of the Superintendent, submitted herewith.

They also ask the special attention of Councils to the plan and estimates therein presented, for completing, within the present and the year next ensuing, the whole of the College Buildings and appurtenances.

It will be seen by the estimate submitted, that the entire sum required to complete the College Buildings is \$408,032. This estimate is founded on elaborate calculations made by the Architect in the year 1839, reviewed by him in 1841 and '42, and upon which he offered to contract to finish the entire work, and which have been carefully verified by the Superintendent. All portions of the work executed since 1841, have been completed within the cost at which they were then estimated. Your Committee, therefore, feel warranted in the belief, that the College Buildings may be fully completed for a sum not exceeding that stated by the Superintendent.

In relation to the time required to execute the remainder of the work, one of the conditions of the contract offered to be entered into by the Architect in 1841, was, that the whole should be completed within two and a half years. More has been accomplished since that date, it is believed, than the Architect proposed to execute within one year. From this, the assurance of the Superintendent and the experience of the Committee, they feel satisfied that if the requisite appropriations be made by Councils in due season, the whole may be completed in the early part of the year 1847, if not before its commencement.

So intimately connected is the proposed active advancement of the College Buildings with, and dependant upon the fiscal means, which are properly and availably applicable to that purpose, that it is essentially requisite they be carefully examined and accurately estimated. From the Annual Statement of the Treasurer of the Girard Estates, presented to Councils on the 2nd instant, it appears that of the securities set apart as the \$2,000,000 appropriated by Mr. Girard to the erection and endowment of the College, there now remains of

	At Par.	Price charged to Col. Fund.
Pennsylvania Loan,	\$456,330 00	\$517,174 00
U. States Bank Stock,	533,100 00	559,755 00
	<hr/> \$989,430 00	<hr/> \$1,076,929 00

Estimating the Loan at 75 pr. ct. on the par value, and the Bank Stock at \$5 00 pr. share, they will produce in cash,	\$368,903 00
Add to this Certificate of Interest, due Feb'y 1, 1844, on Penna. Loan, belonging to the College Fund, bearing 5 pr. ct. interest, at par \$15,901 26, present value, say 68 pr. ct.	10,812 00
Interest on Penna. Loan, due Feb'y 1, 1845, Do which will accrue on the College Fund from Feb'y 1, 1845, until it shall be required to complete the College, say,	11,408 00
Cash, balance now to the credit of the Committee,	14,000 00
	5,176 31
Making together,	\$410,299 31
From which deduct the estimated cost of finishing the College and appurtenances,	408,032 00

And a balance of \$2,267 31 will remain. In addition to this, the probable price of materials and labour during the present and ensuing year will be so much lower than they were when the estimate of the Architect was made, that the actual sum required to complete the College will be materially less than the amount stated by the Superintendent. No want of pecuniary means is therefore to be feared in accomplishing this very desirable object. Should it however happen that the means referred to shall prove inadequate, your Committee are fully convinced that other resources within the control of Councils are amply sufficient, and may be resorted to for that purpose.

With the completion of the main building, the present contracts, in relation to the College edifices, will terminate.

Contracts for the erection of the western buildings and surrounding wall can now be made at prices much less than heretofore, and considerably below, it is believed, those affixed by the Architect in 1839.

That these works can be well and substantially constructed by contract, and with more advantage to the College Fund than by the purchase of materials and the employment of workmen by the Committee, is fully shown by tried experiment.

The present time appears, therefore, highly propitious to a prompt and vigorous prosecution of the entire work. What were the intentions of Mr. Girard and the directions given

by him in regard to the time when the College should be ready for the reception of pupils? His Will clearly answers this question. At almost the beginning of that article (the 21st,) which directs a College to be constructed, it is expressly declared, that the College shall be erected "*as soon as practicably may be.*" Again, it requires that the College shall be organized "*as soon as practicable.*" And further, that "poor white male orphans shall be introduced into the College *as soon as possible.*" The language of the Testator therefore leaves no room for doubt as to his intentions.

Under these directions, no delay in any thing to be done, in order to place the College in full operation, can be allowable, beyond the time absolutely required to accomplish it. Mr. Girard, also, not only declared it to be his intention that the objects of his bounty shall occupy the College as soon as possible, but he most emphatically stated this to be his great and "*primary object.*"

It comes not within the province of your Committee to inquire whether unnecessary delay has already taken place. They intend to make no such allegation. Their purpose is to consider the present and the future, in relation to their own duty, and the means of performing it.

Fully satisfied as they are, that the College Buildings can and ought to be finished within about two years, and that Councils are possessed of the means to do so, they ask that the sum of \$225,000 be appropriated toward that object for the present year; they therefore append hereunto the draft of an Ordinance for that purpose.

Throughout their Report, the Building Committee have desired to manifest great deference and respect toward Councils, but at the same time have deemed it to be their duty to express their opinions and feelings with entire frankness and candour. Required by the duties of their appointment to have much of their attention turned toward the College, and frequently to visit and inspect its progress, and while there, on some occasions to listen with pain to the remarks of our own citizens and of distinguished strangers, resulting from its slow advance, it cannot be matter of surprise that the Committee should feel deeply interested in its active progress.

Believing that with Councils rests the power to complete, at an early day, the purpose of Mr. Girard's most anxious wish, and of his full intention, they have presented such views of the subject as appear to them to be correct, and

with those bodies they leave the responsibility of the proper exercise of that power.

An Ordinance making an Appropriation for the farther construction of the Girard College Buildings for Orphans.

SEC. 1. *Be it ordained, &c.*—That the sum of two hundred and twenty-five thousand dollars be, and the same is hereby appropriated for the further construction of the Girard College Buildings for Orphans, for the ensuing year.

SEC. 2. *Be it ordained, &c.*—That for the purpose of supplying this appropriation, the Mayor of the City is authorized, under the direction of the Commissioners of the Girard Estates, to sell at such times as they may direct, such portion of the securities belonging to the College Fund as may be necessary to raise the amount hereby appropriated.

Philada. Jan'y 3, 1845.

Philada. Jan'y 3rd, 1845.

To the Building Committee of Girard College.

Gentlemen,—In complying with your directions, I proceed to lay before you an account of the progress of the work during the past season, the value of the materials on the ground, and an estimate of the amount yet required to complete the buildings.

The south portico has been entirely completed, with the exception of fluting the columns, which are in progress, and will be finished during the present winter.

The north portico has progressed to a considerable extent, though not so much so as was desired, owing to an insufficient supply of column and architrave blocks. The Contrac-

tors assure me that every exertion will be made during the present winter and coming spring, to have a proper supply furnished, and that hereafter no delay need be feared. Four of the large bases and a portion of three of the columns are finished and set in the building; all the capitals, seven architraves, several column blocks, and near one half the mouldings are finished and ready to be set.

The value of the materials on the ground which have not been set in the buildings, is about \$56,000 00. They consist of six finished capitals, seven column blocks, seven architraves, 613 lenial feet of finished cornice and other mouldings, 14,793 flooring tiles, 8000 feet of marble suitable for steps, platforms, mouldings, ashler and tiles, eight granite blocks for the spring of arches, 15 cwt. of large band iron, and about 35 cwt. of lead for gutters and other purposes.

I herewith submit, in accordance with your resolution, an estimate of the amount yet required to complete the College and appurtenances; and in so doing permit me to say, I have had particular regard to the estimate made by your Architect, (and reviewed by him in 1842) and from experience since then, I find it can be safely relied upon.

To complete the north portico, including fluting of columns, arches over portico, roof, &c.,	\$108,453 00
For finishing interior of main building,	58,579 00
For steps of main building, filling up terrace, building foundations, &c.	27,000 00
For enclosing the two western out-buildings,	90,000 00
For finishing do do	65,000 00
For walling in grounds, including gates of entrance,	45,000 00
For filling up grounds, constructing drains, culverts, &c., including incidental expenses,	14,000 00

Making the entire cost of completing the work, \$408,032 00

Should the Committee determine upon bringing the work to final completion in two years, I would recommend the following plan of operation for the present year.

To complete the north portico; enclose the two western out-buildings; lay the bricks necessary to prepare the main building to receive the marble floors; prepare a portion of the marble tiles for the floors, so that they may be laid through the coming winter, and provide marble for the

steps and platforms of the main building; the estimated cost of which is as follows:

To complete the north portico,	\$108,453 00
To enclose the two western out-buildings,	90,000 00
For bricks and bricklaying necessary to prepare the floors of main building to receive the marble tiles,	3,780 00
For preparing and laying a portion of the tiles for the floors,	9,000 00
For marble for constructing the steps of the main building,	13,767 00
	<hr/>
	\$225,000 00

Early in the spring of 1846, the balance of the plastering, the carpenters' work, and marble floors can be completed; the steps round the buildings, the filling up of the grounds, finishing the out-buildings and the surrounding wall, can be progressing together; so that the work can be brought to a close during the season, for which it will require an additional sum of \$183,032 00.

Permit me, respectfully, to recommend to the Committee the propriety of their giving early attention to that portion of the work they may decide upon having finished during the present year, so that orders may be given for the materials required, and avoid delay in their delivery and prosecution of the work.

With great respect, gentlemen,
I remain your obt. svt.,

In the appropriations to the Standing Committees as above stated, the Committee on Finance have not been entirely governed by the estimates of those Committees, referred to them by Councils, but after careful examination and mature deliberation, they have deducted from several of those estimates, such sums as they are fully convinced is allowable without injury to the community, and imperatively required by a prudent regard to the condition of the finances of the Corporation.

The deductions thus made are as follows, viz.

From the estimate of

The Watering Committee.

Notwithstanding these abatements from the estimates of the Committees, it will be seen from the foregoing statement, that the sum of \$231,579 65, will be required from other sources than the income from City property, to meet the expenses of the Corporation during the present year. To raise this sum by a tax on real estate, will require a levy of not less than *forty-five* cents on every one hundred dollars of the assessed value thereof, within the City. If the full sums asked for by the Standing Committees be granted, the rate of taxation cannot be less than *fifty cents*.

Soon after their appointment, the Committee on Finance had under consideration, the propriety of levying a portion of the taxes required for City purposes, on personal estates. They found however, that to do so, would be attended with many and serious difficulties; and that the measure in itself appeared to be of doubtful expediency; they do not, therefore, feel at liberty to recommend its adoption.

According to the reduced appropriations to the Committees, the amount beyond the stated income of the City, required to meet the expenses of the present year, exceeds that of the same item in the estimates of last year, nearly Fifty Thousand Dollars; being about equal to the extraordinary and unlooked for expenditures to which the City was subjected within the past year, by the tumults and riots which unhappily prevailed during a portion of that period

in the adjoining Districts, and partly within the boundaries of the City. Under these circumstances, the Committee on Finance respectfully suggest that in case Councils deem it proper, as was formerly done, to make an appropriation from the income of the Residuary Estate of Mr. Girard, and set apart the sum of \$50,000 for Police and other City expenditures of the present year, that then an assessment on real estate of the same rate of taxation as in 1844, will provide a sufficient sum for 1845.

The draft of an Ordinance will be appended hereunto, making the appropriations stated, and providing for such means as Councils shall determine upon to meet them.

On the 1st of January next, loans of the City amounting to \$456,000 will become due. The Committee have the pleasure to state, that the available amount of the Sinking Fund at that time will, it is confidently believed, be not less than \$380,000; and that there remains of the consolidated loan of 1839, more than sufficient to supply all the sum that may be wanting, to pay the full amount due on the 1st of the ensuing year.

The Committee on Police, to whom was referred the Communication from Britton Evans, tendering to Councils the services of the volunteer corps of Harrison Blues, agreeably to the Ordinance of 11th July, 1844, in the room of the Washington Blues, withdrawn, respectfully

REPORT—

That they have considered the subject embraced in the Communication above referred to, and are aware of the propriety of encouraging the spirit that prompts the citizen soldiers to tender their services to the civil authorities in defence of law and order, and the preservation of the public peace; but they are of the opinion that it is unnecessary to make any further expenditure of the public money under the Ordinance of July 11th, and therefore deem it inexpedient to accept the proposition, and offer the following Resolution.

Resolved, That the Committee be discharged from the further consideration of the subject.

J. E. HAGERT,
SAUN. LEWIS,
T. C. ROCKHILL,
GEO. CAMPBELL,
JOHN TRUCKS,
WILLIAM MORRIS.
JACOB SENNEFF,
JOHN P. WETHERILL.

An Ordinance relating to Water Street.

SECTION 1. *Be it ordained and enacted by the Citizens of Philadelphia, in Select and Common Councils assembled,* That it shall be the duty of the City Solicitor, from time to time, under the direction of the Committee on Public Highways, to institute proceedings agreeably to the ninth section of the Act of Assembly of March 24th, 1832,

entitled "An Act to enable the Mayor, Aldermen and Citizens of Philadelphia to carry into effect certain improvements, and to execute certain trusts for the purpose of ascertaining the damages which will be sustained by the owners of property, in consequence of the laying out of Water street anew.

APPENDIX, No. XX.

To the Select and Common Councils :

The Committee on Public Highways, to whom was referred the petition of sundry citizens, praying for an alteration of the regulation of ascents and descents in Vine street, between Schuylkill 4th and 5th streets, Report, That they believe said alteration would be of advantage to the petitioners and without injury to the city; they recommend the passage of the annexed ordinance.

An Ordinance providing for an Alteration in the Regulation of Vine street, between Schuylkill Fourth and Fifth streets.

SECTION I. *Be it ordained and enacted by the Citizens of Philadelphia, in Select and Common Councils assembled,* That the owners of property situated on the north side of Vine street, between Schuylkill Fourth and Fifth streets, be, and they are hereby authorized to alter the regulation of ascents and descents on the north side of Vine street, between Schuylkill Fourth and Fifth streets, in conformity with a plan prepared by Samuel Hains, Principal City Surveyor and Regulator, dated 26th February, 1845, any existing ordinance or regulation to the contrary notwithstanding. Said alteration to be made by and at the expense of said owners of property, under the direction of the City Commissioners.

APPENDIX, No. XXI.

To the Select and Common Councils of the City of Philadelphia:

The Committee on Legacies and Trusts, to whom was referred on the 16th of January last, a communication from the America Hose Company nominating their Engineers,

REPORT,—

That they have had a conference with a Committee of the Company, from whom they received such explanations and representations that your Committee are satisfied that the omission to nominate Engineers at the regular time was not intentional, but occasioned by circumstances which in future will be obviated.

As this Company is considered among the most useful and efficient, always remarked for propriety and good conduct, and was last year one of the first to accept the provisions of the recent ordinance, it would be a matter of regret that they should not belong to the Department.

The Committee therefore suggest to Councils the propriety of receiving the nominations presented by the Company, and of proceeding to the appointment of one of them as Engineer, and offer the annexed resolution.

Resolved, That the nomination of Engineers made by the America Hose Company on the 16th January last, be received, and that Councils proceed to the appointment of one of them for the ensuing year.

APPENDIX, No. XXII.

An Ordinance to provide for the Appointment of Collectors of Vaccine Cases.

SECTION 1. *Be it ordained and enacted by the Citizens of Philadelphia, in Select and Common Councils assembled,* That the Mayor shall annually, on the first day of

March, or if that comes on Sunday, then on the preceding day, appoint a Collector of Vaccine Cases for each of the Vaccine Districts established by Ordinance of 19th December, 1844, entitled "A Supplement to an Ordinance entitled 'An Ordinance to provide for gratuitous Vaccination:,'" and the said Collectors shall perform all the duties, and be entitled to receive all the emoluments prescribed by an Ordinance passed the 2nd of January, 1830, entitled "An Ordinance providing for gratuitous Vaccination," and an Ordinance passed 17th of August, 1837, entitled "An Ordinance relating to Salaries."

APPENDIX, No. XXIII.

To the Select and Common Councils of the City of Philadelphia:

The Committee on Legacies and Trusts, REPORT—

That the Delegates of the Fire Association of Philadelphia, at a meeting held on the third instant, adopted a resolution by which the Board of Control was thereby dissolved. It has therefore become necessary to repeal the III and IV sections of the Ordinance "granting aid to the Fire Engine and Hose Companies," passed May 21, 1840, which provides that no Company should receive their annual appropriation without a proper certificate from that Board; and authorizing the Mayor to appoint a representative from each Company to perform the duties therein specified.

The Committee therefore submit a draft of an Ordinance for that purpose.

All which is respectfully submitted.

A Supplement to an Ordinance, entitled "An Ordinance for the better regulation of the Fire Department."

SECTION 1. *Be it ordained and enacted by the Citizens of Philadelphia in Select and Common Councils assembled,* That the Third and Fourth Sections of an Ordinance,

entitled "An Ordinance granting aid to the Fire Engine and Hose Companies of the City," passed the 21st May, 1840, be, and the same are hereby repealed.

APPENDIX, No. XXIV.

To the Select and Common Councils:

The Committee on Public Highways have had under consideration several applications for permission to make turn-outs from the Rail Road in Broad street, south of Chestnut street, against which strong remonstrances have been made by a large number of citizens, owners of property and residents in the vicinity; which petitions and remonstrances are submitted herewith.

The Committee have duly weighed the matter in all its aspects, and a majority of them are decidedly of opinion, that the time has arrived when a stop should be put to granting such permits, and they annex a resolution, which they submit for the consideration of Councils.

The Committee have also had under consideration a memorial from the owners of property on High, between Schuylkill Front and Second streets, which is hereto annexed, asking for the construction of a culvert in High street, from Ashton street to the east side of Front street, so as to enable them to drain their property, the natural outlet having been cut off by the closing of Minnow Run. The Committee after investigating the subject are of opinion, that the application is a reasonable one and ought to be granted; and they submit a bill with a plan, prepared by Samuel Hains, Principal City Surveyor, providing therefor, which they recommend Councils to pass.

An Ordinance relating to Water Street.

SECTION 1. *Be it ordained and enacted by the Citizens of Philadelphia, in Select and Common Councils assembled,* That the Committee on Public Highways be, and they are hereby authorized and required to pay to John Easby, the sum of Seven Hundred and Fifty Dollars, which sum he has agreed to accept as compensation for injury done to his property, situate on the east side of Water street, commencing at the distance of one hundred and eighty-three feet four inches from the south side of Chesnut street, and extending in front on said Water street southwardly twenty feet nine inches, by taking a portion thereof from the front on Water street by the laying out of Water street anew.

SECTION 2. That the sum of Seven Hundred and Fifty Dollars out of the income of the fund appropriated under the 22nd item of the Will of Stephen Girard, for the improvement of the eastern front of the City and Delaware Avenue, be appropriated to the expense of carrying into effect this Ordinance; to be paid in the manner that appropriations for Delaware Avenue are directed to be paid in the several Ordinances relating thereto.

An Ordinance relating to Water street.

SECTION 1. *Be it ordained and enacted by the Citizens of Philadelphia, in Select and Common Councils assembled,* That the Committee on Public Highways be, and they

are hereby authorized and directed to pay to Ann McDermott, executrix and widow, and Edward McDermott and Catharine McDermott, children and heirs of Edward McDermott, deceased, the sum of Two Thousand Two Hundred and Fifty Dollars; the same being the amount awarded to them by a Jury appointed to assess the amount of damage done to their property by the laying out of Water street anew.

SECTION 2. That the sum of Two Thousand Two Hundred and Fifty Dollars out of the income of the fund appropriated under the 22nd item of the Will of Stephen Girard, for the improvement of the eastern front of the City and Delaware Avenue, be appropriated to the expense of carrying into effect this Ordinance; to be paid in the manner that appropriations for Delaware Avenue are directed to be paid in the several Ordinances relating thereto.

Resolved, That the City Commissioners, under the direction of the Committee on Public Highways, be authorized and directed to repave the following streets, viz: Walnut street, between Delaware Fifth and Sixth streets; Chesnut street, between Delaware Third and Fourth streets; and Library street, between Delaware Fourth and Fifth streets.

APPENDIX, No. XXVIII.

To the Select and Common Councils of the City of Philadelphia:

The Committee on Legacies and Trusts, to whom was referred, on the 27th March last, a communication from the Board of Engineers of the Middle Fire District, informing of the violations of the ordinance by the Good Intent Hose Company,

REPORT—

That they duly notified the Company and the Engineers that they would proceed to investigate the charges at their stated meeting held on the 16th instant.

At that time they were attended by a committee from the Hose Company only.

The Company without denying the charges against them, alleged in extenuation that the carriage was taken to the fire in Third above Poplar street, by Mr. McDowell, then a carriage Director, with the assistance of persons not members of the Company, before the members arrived at the

house. That for this offence Mr. McDowell was expelled from the Company and is no longer a member.

That they attended the fire in Willow street, conceiving that distance to be within the exception mentioned in the second section of the ordinance, and that they therefore in this committed no violation.

The Committee having no further information before them on the subject, nor means of obtaining it, concluded it would be unnecessary to pursue the investigation further, but would ask to be discharged from the further consideration of it.

The Company further stated that their Engineer having resigned, they were not represented in the Board at the time the charges against them were prepared.

All which, with the annexed resolution, is respectfully submitted.

APPENDIX, No. XXIX.

To the Select and Common Councils of the City of Philadelphia:

The Committee on Legacies and Trusts, to whom the Select Council, on the 27th March last, referred a communication from the executors of Paul Beck, Jr., Esq., deceased,

REPORT—

That it appears from the extracts of the Will of this benevolent gentleman, furnished by the executors, that he has devised to the City two well secured and irredeemable ground rents of \$500 per annum each; one of them chargeable on the premises No. 62 High Street, and the other on the adjoining

premises No. 64 High Street; both payable quarterly, free from deduction for taxes, &c. The first to be applied to the purchase of fuel for the use of the out door poor; as this does not come into possession of the City until after the decease of his daughter-in-law Frances R. Beck, it will require no further action at this time.

The other ground rent is devised to the City immediately, "in trust to collect and receive the same as it becomes due, and pay over the same to the Soup Societies established in the City of Philadelphia, to aid said Societies in their humane endeavours to supply the poor with soup;" the first quarterly payment of this ground rent will become due on the 8th day of June next.

The Ordinance of October 1, 1835, authorizing the appointment of the Standing Committees, directs that this Committee "shall have charge of all the legacies and trusts confided to the City," and the Committee being willing to contribute their aid to carry into effect the charitable intentions of the Testator, suggest the propriety of enacting the annexed bill.

All which is respectfully submitted.

An Ordinance to provide for the Application of the Devise of Paul Beck, Jr., Esquire, to the Mayor, Aldermen and Citizens of Philadelphia, in trust for the Soup Societies of the City of Philadelphia.

SECTION 1. *Be it ordained and enacted by the Citizens of Philadelphia, in Select and Common Councils assembled*, That the Devise made by Paul Beck, Jr., Esquire, to The Mayor, Aldermen and Citizens of Philadelphia, of a certain ground rent of five hundred dollars per annum, payable quarterly, issuing out of the estate of Paul Lajus, situate on the south side of High street, between Delaware Second and Third streets, in fee, in trust, to receive and collect the said income, and pay the same to the Soup Societies established in the city of Philadelphia, to aid

said Societies in their endeavours to supply the poor with soup, be placed in charge of the Committee on Legacies and Trusts; and the said Committee be, and they are hereby directed to apply the same according to the directions of the Testator.

APPENDIX, No. XXX.

To the Select and Common Councils of the City of Philadelphia:

The Committee on Legacies and Trusts to whom was re-committed on the 27th March last, a bill entitled "A Supplement to an Ordinance entitled an Ordinance for the better regulation of the Fire Department," with instructions to inquire into the propriety of providing that no Fire Company should receive their annual appropriation without a certificate from the Board of Engineers of the Middle Fire District,

REPORT—

That they have diligently inquired into and duly considered the subject, and are satisfied that it would be both proper and expedient to require that the certificate mentioned should be obtained by the Companies, thus substituting the Board of Engineers for the Board of Control for this purpose they being no longer as a body in existence. .

The Committee submit a bill in conformity to their views.

The VIII section of the Ordinance of the 4th of January, 1844, makes it the duty of the several Fire Companies to make an annual return to Councils at such time as they may direct; which return is to state the condition of their apparatus, the number of fires at which they have been in operation, and other useful information. The Councils not having yet directed the time at which this return should be made, the Committee avail themselves of this opportunity of suggesting the propriety of now designating the time this return should be made, and have introduced into the bill now submitted, a section nominating the last stated meeting in May for that purpose, as this will be a short time anterior to the

annual visit of inspection by the Committee to the several Companies, it seems to be more suitable and convenient than any other.

In case Councils should enact the bill submitted, the Committee suggest the propriety of transmitting a copy of it to each of the Companies and to the Board of Engineers.

All which is respectfully submitted.

A Supplement to an Ordinance entitled "An Ordinance for the better regulation of the Fire Department."

SECTION 1. *Be it ordained and enacted by the Citizens of Philadelphia, in Select and Common Councils assembled*, That no Fire Engine or Hose Company shall receive the annual appropriation provided for by the first section of an Ordinance passed the 21st day of May, 1840, entitled "An Ordinance granting aid to the Fire Engine and Hose Companies of the City," without a certificate being first obtained from the Board of Engineers, constituted by the Ordinance to which this is a Supplement, that such Company has not been guilty of any violation of any of the provisions of the said last mentioned Ordinance. *Provided*, nevertheless, that the Committee on Legacies and Trusts shall exercise a discretion in granting or withholding the appropriation notwithstanding such certificate.

SECTION 2. That the annual return to be made to the Select and Common Councils, as provided in the eighth section of the Ordinance to which this is a Supplement, shall be made on the last stated meeting in May.

SECTION 3. That so much of any Ordinance as is inconsistent herewith, be, and the same is hereby repealed.

An Ordinance to provide for the regulation of Turn-outs from the City Railroad.

SECTION 1. *Be it ordained and enacted by the Citizens of Philadelphia, in Select and Common Councils assembled,* That the Committee on Public Highways be, and they are hereby authorized to grant permission to persons or companies to attach turn-outs or bolting tracks to the Railroad in the city of Philadelphia; said turn-outs or bolting tracks to be laid in such manner as to conform to the established heights and levels of the street in which they shall be placed; and such permission shall be in writing, and shall be subject to the provisions of this and all Ordinances relating to the Railroad in the City of Philadelphia.

SECTION 2. That if any turn-out, bolting track, switch, or turning platform, shall be out of order and repair, and the owner or person having charge thereof shall refuse or neglect to repair or put the same in good order after fifteen days notice from the Superintendent of the City Railroad, the same shall be taken up and removed under the direction of the Committee on Public Highways; and the owner or person having charge of such turn-out, bolting track, switch or turning platform, shall also forfeit and pay the sum of twenty dollars, to be sued for and recovered in the manner that penalties for the breach of Ordinances are by law recoverable.

An Ordinance to authorize the construction of a Culvert in the centre Alley, between High and Mulberry Street.

Whereas, In consequence of opening Delaware Avenue, between High and Mulberry Street, and of improving Water

street as directed by the 22nd section of the Will of Stephen Girard, it has become necessary to provide a passage for the water accumulating in said Water street. Therefore,

SECTION 1. *Be it ordained and enacted by the Citizens of Philadelphia, in Select and Common Councils assembled,* That the City Commissioners, under the direction of the Committee on Public Highways, cause to be constructed a culvert, with suitable inlets in the centre Alley between High and Mulberry street, commencing at the west side of Water street and extending into the river Delaware, according to a plan herewith presented, made by Samuel Hains, Principal City Surveyor and Regulator, dated the 24th day of April, 1845: the said Culvert to be of a diameter not exceeding two feet six inches.

SECTION 2. That the sum of Six Hundred Dollars, out of the income of the fund appropriated under the 22nd item of the Will of Stephen Girard, for the improvement of the eastern front of the City and Delaware Avenue, be appropriated to the expense of carrying into effect this Ordinance; to be paid in the same manner that appropriations for Delaware Avenue are directed to be paid in the several Ordinances relating thereto.

An Ordinance relating to Water Street.

SECTION 1. *Be it ordained and enacted by the Citizens of Philadelphia, in Select and Common Councils assembled,* That the Committee on Public Highways be, and they are hereby authorized and required to pay to George Blight, the sum of Two Thousand Five Hundred Dollars; which sum he has agreed to accept as compensation for injury done to his property, situate on the east side of Water street, commencing at the south side of High street, and extending in front on said Water street southwardly twenty-seven feet six inches, by taking a portion thereof from the front on Water street by the laying out of Water street anew.

SECTION 2. That the sum of Two Thousand Five Hundred Dollars, out of the income of the fund appropriated under the 22nd item of the Will of Stephen Girard, for the improvement of the eastern front of the City and Delaware Avenue, be appropriated to the expense of carrying into effect this ordinance; to be paid in the manner that appropriations for Delaware Avenue are directed to be paid in the several ordinances relating thereto.

SECTION 1. *Be it ordained and enacted by the Citizens of Philadelphia, in Select and Common Councils assembled,* That immediately after the passage of this ordinance, and annually thereafter on the first Monday in March, or as soon thereafter as practicable, the Mayor shall appoint from the present Night Police men, two members thereof, who shall be styled respectively, the First and Second Lieutenant of the Night Police, and shall do and perform such duties as the Mayor may assign to them; the said First Lieutenant shall receive an annual compensation of four hundred and thirty-seven dollars, and the Second Lieutenant the sum of four hundred and twenty dollars, in lieu of the pay which they may be entitled to receive as Night Police men; to be paid in the same manner and at the same time that the police are now paid; and the said officers shall be removable at the pleasure of the Mayor.

APPENDIX, No. XXXIII.

To the Select and Common Councils of the City of Philadelphia:

The Committee on Legacies and Trusts, to whom was referred, on the 8th inst., a communication from the Board of Engineers of the Middle Fire District, asking a repeal of the 3rd section of the Ordinance for the better regulation of the Fire Département, on account of the bells placed on the Station Houses not being of sufficient size to spread an alarm in the district,

REPORT,—

That having deliberately considered the matter referred to them, they are of opinion that it would be inexpedient to repeal the section referred to, which prohibits the companies from erecting or using any stationary alarm bell.

The Committee, however, from their own observation, and from the best information they can obtain, are decidedly of opinion that the bells placed on the Station Houses are entirely too small for the purposes they were designed for; and more particularly so with respect to those in the North-west and South-west Districts.

They therefore most earnestly recommend to Councils forthwith to substitute in those districts, other bells of at least double the weight of those now in use: the same to be done under the superintendence of the appropriate Committee.

The Committee submit a resolution asking to be discharged from the further consideration of the subject.

APPENDIX, No. XXXIV.

To the Select and Common Councils :

The Committee on Public Highways Report, that they have had under consideration the various petitions referred to them by Councils, asking for the paving and repaving of sundry streets, and after a general examination, have agreed to offer the annexed resolution, providing for such as seem most to require it.

The Committee regret that the limited appropriation for these objects will not permit them to recommend to Councils the improvement of many other streets which are in a rough and unwholesome condition. In these cases, temporary patching, which is of doubtful economy, has been directed.

The Committee also annex a bill authorizing the construction of a Sewer in Cedar street, from Broad to Thirteenth street, which they recommend Councils to pass; also, a bill in relation to Water Street.

SECTION 1. *Be it ordained and enacted by the Citizens of Philadelphia, in Select and Common Councils assembled*, That the Committee on Public Highways be, and they are hereby authorized and directed to pay to Martha Bladen, widow of, and Ann Eliza McMain, widow, late Bladen, James B. Clark, in right of his wife Catharine Clark, late Bladen, Washington L. Bladen, Harriet Bladen, and William T. Bladen, children and heirs of William T. Bladen, deceased, or to the person or persons entitled to receive the same, the sum of one thousand one hundred dollars, being the amount of damages sustained by the property belonging to the estate of the said William T. Bladen, situate on the east side of Water street, between Mulberry and Sassafras streets, by the laying out of Water street anew, as assessed by the jury appointed by the Court of Quarter Sessions to assess the damages done to certain property in Water street, by the laying out of Water street anew, by a report filed in said Court on the 10th day of May, 1845.

SEC. 2. That the said Committee be authorized and directed to pay to Stephen C. Colwell, in right of his wife Sarah R. Colwell, late Sarah R. Richards, and Walter Dwight Bell, in right of his wife Elizabeth A. Bell, late Elizabeth A. Richards, daughters of Samuel Richards, deceased, and Harriet Richards, widow of Thomas S. Richards, deceased, who was son of Samuel Richards, deceased, and the minor children of said Thomas S. Richards, viz: Samuel Richards, Henry K. Richards, Mary S. Richards, and Susan M. Richards, or to the person or persons entitled to receive the same, the sum of three hundred and sixty-two dollars, being the amount of damages sustained by the property belonging to the estate of the said Samuel Richards, situate on the east side of Water street, between Sassafras and Vine streets, by the laying out of Water street anew, as assessed by the jury appointed by the Court of Quarter Sessions to assess the damages done to certain property in Water street, by the laying out of Water street anew, by a report filed in the said Court on the 10th day of May, 1845.

SEC. 3. That the sum of one thousand five hundred and forty dollars, out of the income of the fund appropriated under the twenty-second item of the Will of Stephen Girard, for the improvement of the eastern front of the city and Delaware Avenue, be appropriated to the expense of carrying into effect this Ordinance, and for paying the expenses of the jury before mentioned; to be paid in the manner that appropriations for Delaware Avenue are directed to be paid in the several Ordinances relating thereto.

APPENDIX, No. XXXV.

To the Select and Common Councils:

The Joint Special Committee to whom was referred the communication of Edwin Greble, asking Councils to appoint a committee to inquire into the conduct of the Building Committee, in contracting for the construction of the two western out-buildings of the Girard College,

REPORT,—

That in the exercise of the authority of their appointment, the Committee proceeded in the discharge of their duties, to ask for and examine such papers, and invite the attendance of such persons as were deemed essential to a proper investigation of the subject thus submitted. Under resolutions, your Committee were furnished with a copy of the minutes of the proceedings of the Building Committee in relation to the subject, and were attended by their Chairman, and also by Mr. Greble; from all of which it appears that circulars for proposals for constructing the said buildings were issued; and that Mr. John Lindsay proposed to do the entire work for the sum of \$87,500 00, which after consideration was deemed by the Committee as the lowest and best offer; being \$1400 00 less than Mr. Greble's proposition: and by a resolution of that committee, the contract was to be given to John Lindsay for the reduced sum of \$85,000 00, provided Joseph S. Walter be employed to do the mason work, and John Struthers & Son the marble work; the whole to be done agreeably to the plan and specifications as theretofore furnished. Whereupon a sub-committee was appointed to confer with Mr. Lindsay on the subject of the said resolution.

It appears that the sub-committee were informed by Mr. Lindsay that he had sub-estimates for the marble work furnished to him by different persons, among whom were Mr. Greble and Mr. Struthers; and that difficulties presented themselves, growing out of private arrangements previously entered into by him; which difficulties the sub-committee assumed the responsibility of endeavoring to reconcile, but without success.

Mr. Lindsay then asked to be released from his proposal for the entire work, so far as to separate the carpenter from the marble and stone work; which it appears the Building Committee deemed it expedient to do. And by a subsequent resolution, the marble work was given to William Struthers for the sum of \$52,900 00; the mason work to Jos. S. Walter for \$16,951 00, which was subsequently increased \$500 00, in consideration of an error in the estimate, and Mr. Lindsay was to complete the balance of the work, as per plan and specifications, for \$15,629 00; and separate contracts were to be made with each party and separate security given.

It was stated before your Committee that the sub-estimates for the marble work made to Mr. Lindsay, were not made to the Building Committee; nor were they at any time officially before them; yet it appears from the statement made by Mr. Greble to Councils that his sub-estimates to Mr. Lindsay were lower than those of Mr. Struthers; but it also appears that the contract as awarded to Mr. Struthers by the last resolution, is lower than any estimate furnished either to the Building Committee or to Mr. Lindsay.

The Building Committee, in the exercise of their judgment, deeming it expedient to do so, awarded the contracts as in the last resolution, and at rates lower than any estimates of which this Committee have been informed. They therefore offer the following resolution:

Resolved, That they be discharged from the further consideration of the subject.

An Ordinance to provide for the establishment and maintenance of a Police Force for the City of Philadelphia, as required by an Act of the General Assembly of the Commonwealth of Pennsylvania, passed the 12th day of April, 1845, and for the appointment of a Superintendent thereof.

Whereas, By an Act of the General Assembly of the Commonwealth of Pennsylvania, passed the 12th day of April, 1845, entitled "An Act for the better regulation of Police in the City of Philadelphia and the adjoining Districts," the City of Philadelphia and the Districts of Southwark, Spring Garden, Incorporated Northern Liberties, Kensington and Penn, and the Township of Moyamensing, in the County of Philadelphia, are respectively required to establish and maintain Police Forces, to consist of not less than one able-bodied man for every one hundred and fifty taxable inhabitants therein, for the purposes in the said Act mentioned: And the Councils of the said City and the Commissioners of the said Districts and Township are also required to appoint a Superintendent of Police for their respective corporate limits.

And whereas, The Police Force which the City of Philadelphia is required, by the said Act, to establish and maintain is one hundred and forty-seven men. Therefore—

Be it ordained and enacted by the Citizens of Philadelphia, in Select and Common Councils assembled, That so much of the present Police force of the City of Philadelphia as is composed of the Night Policemen and the Watchmen and their respective Captains, making a total number of one hundred and fifty-nine men, be and the same are hereby constituted a Police force for the City of Philadelphia, who shall, in addition to the services which by the Ordinances of the City of Philadelphia are required of them, do and perform the duties required of the Police force by the said Act of Assembly, under the direction of the Superintendent of Police hereinafter appointed.

SECTION 2. That the Mayor of the City of Philadelphia, for the time being, be, and he is hereby appointed Superintendent of the said Police force of the City of Philadelphia: and it shall be his duty to do and perform the services required of the Superintendent of Police as the same are set forth in the said Act of Assembly.

An Ordinance providing for an alteration in the regulation of Mulberry street, between Schuylkill Fifth and Sixth streets.

Be it ordained and enacted by the Citizens of Philadelphia, in Select and Common Councils assembled, That the regulation of ascents and descents in Mulberry street, between Schuylkill Fifth and Sixth streets, be, and the same are hereby altered and established in conformity with a plan prepared by Samuel Hains, Principal City Surveyor and Regulator, dated the 10th day of June, A. D. 1845, any existing regulation or ordinance to the contrary notwithstanding.

An Ordinance providing for an alteration in the width of the foot pavement and the line of the curb stone of Library street, between Delaware Fourth and Fifth streets.

SECTION 1. *Be it ordained and enacted by the Citizens of Philadelphia, in Select and Common Councils assembled,* That the width of the foot pavement and the line of the curb stone in Library street, between Delaware Fourth and Fifth streets, be, and the same are hereby altered and established in conformity with a plan prepared by Samuel Hains, Principal City Surveyor and Regulator, dated the 10th day of June, A. D. 1845, any existing regulation or ordinance to the contrary notwithstanding.

APPENDIX, No. XL.

An Ordinance to fix the Salary of the City Treasurer.

SECTION 1. *Be it ordained and enacted by the Citizens of Philadelphia, in Select and Common Councils assembled,* That from and after the first day of July, 1845, the annual compensation to be allowed to the City Treasurer for Salary and Clerk hire shall be two thousand seven hundred and fifty dollars, payable quarterly, any ordinance to the contrary notwithstanding.

APPENDIX, No. XLI.

To the Select and Common Councils of the City of Philadelphia :

The Committee on Legacies and Trusts having, as directed by Ordinance, made their annual visit to, and inspection of, the Fire Engine and Hose Companies of the city who have acceded to the Ordinance relating to the Fire Department,

REPORT—

That they have found the Companies in good order and condition, and many of them with increased efficiency from the addition of new members and apparatus.

The Committee have to regret that the Fame Engine Company, from adverse circumstances, have been obliged to dissolve since their last report; but they have had the satisfaction to add to their list two able and active Hose Companies—the “Resolution” and the “Southwark.”

The whole number being now 21, of which 9 are Engine, and the remaining twelve Hose Companies, which the Committee are of opinion are quite sufficient for any emergency.

The Board of Control, in whom the authority of issuing certificates of approbation to the several companies was theretofore vested, having ceased to exist, by an Ordinance of Councils, passed 24th April, 1845, this authority was transferred to the Board of Engineers, and the Committee were gratified to find all the companies in possession of this testimonial.

The fire companies from the adjoining districts still continue their unauthorized incursions into the city upon the slightest, and indeed most frequently without pretence or

excuse; although they have not yet committed within our borders any violence or outrage, yet on the occurrence of a fire they seize the plugs and use and waste the water without control, preventing the authorized companies from affording that assistance which they are fully able and willing to render.

As these companies do not regard the municipal regulations and authorities of their districts, the Committee are at a loss to suggest any mode which will prevent their unwelcome visits, and can only rely on the efficiency of the recent Police Ordinance to suppress any disturbance which they may occasion.

The insufficiency of the Alarm Bells has been heretofore brought before Councils, but as the subject is now under consideration by the appropriate committee, no doubt such improvements will be made as will obviate existing difficulties and objections.

The Committee suggest to the Councils the adoption of a resolution in regard to the distribution of the appropriation to the companies, similar to that made last year—leaving it with the Committee to withhold a part or the whole of the amount, according to circumstances. This discretion was found useful in practice, and the Committee are desirous of an opportunity of again exercising it. They therefore submit a resolution to that effect.

The Committee also on the fourth of June visited the Wills Hospital, and made a thorough examination of the house and grounds, and are satisfied that the benevolent intentions of the founder are fully carried out.

The Committee, on some future occasion, will submit to the Councils a full and detailed statement of the condition of the several trusts under their care, and therefore forbear at this time further remark.

All which is respectfully submitted.

APPENDIX No. XLII.

To the Select and Common Councils of the City of Philadelphia.

THE Committee on Legacies and Trusts, in compliance with the Ordinance requiring them so to do, submit the following

REPORT

of their proceedings, and also the state and condition of the several Trusts under their charge.

The Legacy of Dr. Benjamin Franklin, (\$4,444 44) to be loaned to young Mechanics of the City, upon security. But one loan has been applied for and made since the last report.

It is obvious, from the above statements, that the intentions of the benevolent Testators in making these bequests have not been fulfilled. The smallness of the amount loaned, and difficulty of procuring the necessary security, are probably obstacles, and perhaps the existence of this fund is not generally known among those who are entitled to claim the benefit of it. In the absence of applications the Committee have invested the surplus income in City Loan.

FUEL FUND.

This Fund originated in the year 1793, and by various bequests and donations has increased to the present amount, invested as follows:

City 5 per cent. Loan,	\$6,800 00

PREMIUM FUND.

This arises from a legacy of John Scott, before mentioned, the income of which is to be distributed in premiums to the discoverer or inventor of useful machines, &c.; this has been latterly appropriated and decided upon by the Franklin Institute in a very satisfactory manner: the amount, originally \$4000, has been increased, and is invested in

One premium only has been awarded since the last report, and the surplus income has been invested.

SAMUEL SCOTTIN'S LEGACY.

This consists of a well secured ground rent of \$12, paid annually, and is appropriated for the purchase of bread for the poor, to be distributed on the 23rd February, the Testator's birth day, which has been strictly attended to by the Committee.

PAUL BECK, JR'S. LEGACIES.

A ground rent of \$500 per annum, payable quarterly, to be paid over to the Soup Societies of the City in aid of their funds. This legacy has been so recently placed under the charge of the Committee that they have not yet acted on it, but the ensuing winter will test its usefulness.

The other legacy of the same amount, for the purchase of fuel for the poor, as this will not be available until the decease of a person still living, it only requires this notice.

The Committee observe, and call the attention of their successors to the fact, that of the foregoing investments the follow-

ing will be paid off on the first day of January next (1846,) and will require to be reinvested as early as possible.

THE BOUDINOT LANDS.

These lands, consisting of thirty-two tracts, comprehending about thirteen thousand acres of land, are situated in Howard township, Centre county, Pennsylvania, on the west branch of the Susquehanna.

The Councils having this year appropriated an amount for their examination, a portion of the Committee, at the end of July and beginning of the present month (August,) proceeded to Centre county, and finding there was no road or accessible path near to or through the lands, reached them by fording the river, then too low even for canoe navigation. From this, though rather circumscribed view, but more particularly from information obtained on the spot, the Committee are satisfied that these lands are as described in the will of the Testator, "rough and mountainous," but having some valuable timber, and also, in common with all the land in that region, containing coal and iron: none of the public improvements yet reach this portion of the State, and no cheap mode of transporting their products exists, which necessarily retards improvement.

It is obvious, therefore, that the "rents, issues and profits" of this land, cannot be made available for the purposes designed by the Testator, and the Committee coincide with the opinion of their predecessors, that a sale is both proper and expedient. An Act of the Legislature was obtained in 1834, authorizing it to be done, and it is a matter of regret that the authority should not have been exercised at a period more favorable than the present.

These lands have been visited heretofore by Committees in 1833, 1837, and 1841; of these, the Committee of 1837 only have made a report, which will be found in the Appendix to the Journal of the Common Council, Vol. II, pages 44 and 85; this, with many valuable facts and suggestions, contains some fanciful and sanguine anticipations and speculations, none of which have been realized, nor probably will be shortly, and must be classed with "the errors of the times"—then so abundant.

The Legislature, at their last session, appointed Commissioners to view, lay out and mark a State road from Milesburgh to the mouth of the Sinnemahoning; this will necessarily pass through a part of the lands, and when completed will be advantageous to their improvement. It has been represented, however, as a work of considerable expense, and that it will occupy a long time to execute.

The Committee, with a view to prevent depredations and trespasses on the land, appointed Jacob G. Lebo, who resides in the vicinity, to superintend and overlook them, with authority to take all lawful ways and means to prevent them in future. They also entered into a temporary arrangement with him for cutting such of the timber as requires it; this will produce some income for the payment of taxes; and if commenced at an earlier period would have prevented trespassers from availing themselves of this advantage.

The Committee also engaged the professional services of L. A. Mackey, Esq., Lockhaven, which was deemed necessary, as they were informed upon good authority, that several rafts of timber from the land were on the river ready to take advantage of the next "fresh," and which it was necessary to proceed against without delay.

The Committee were much indebted to Mr. Quay, a surveyor of great experience and local information, and now in the Senate of Pennsylvania from that district, for his advice and assistance in their inquiries, who also accompanied them to the lands, and made many useful suggestions.

The Committee, in conclusion, suggest to their successors the propriety of selling these lands, as soon as a fair price can be obtained for them, and from the proceeds refund to the City Treasury what has been expended on their account, and with the residue carry out the intentions of the Testator.

To the Select and Common Councils :

The Committee on Finance respectfully

REPORT,—

That application has been made by Mr. John Poulson, one of the Sureties of William S. Poulson, Collector of City Taxes for Walnut Ward, to release a portion of his Real Estate from the lien held by the City upon it.

That the Committee are well satisfied that ample security will be retained by the City after complying with the request of Mr. Poulson, and they therefore recommend the passage by Councils of the following resolution—viz:

Resolved, That the Mayor be authorized and requested, on behalf of the Mayor, Aldermen and Citizens of Philadelphia, to release from the lien of a judgment entered in the District Court for the city and county of Philadelphia, on the 20th June, 1845, to June term 1845, No. 49, in which the Mayor, Aldermen and Citizens of Philadelphia are plaintiffs, and Wil-

liam S. Poulson, John Poulson and Matthew Heron, are defendants, the following described Real Estate, owned by John Poulson, one of the defendants; provided the other defendants in said judgment consent thereto, viz:

All that certain three story brick messuage or tenement, piazza and lot or piece of ground, situate on the south side of Lombard street, between Delaware Second and Third streets, in the city of Philadelphia, bounded and described as follows, to wit: beginning at a point on the south line of the said Lombard street, in the middle of the partition wall between this and the messuage adjoining on the east, thence extending southward along the middle of the same partition wall forty feet to the outside of the south wall of the said messuage now described, thence westward along the outside of the said south wall four inches, thence southward, on a straight line at right angles with said Lombard street, fifty-eight feet one inch, thence westward on a line parallel with said Lombard street, twenty-one feet two inches, thence northward, on a straight line at right angles with Lombard street, ninety-eight feet one inch, to the line of said street, and thence eastward along the south line of said Lombard street twenty-one feet six inches, to the place of beginning. APPENDIX, No. XLV.

The Committee to whom was referred sundry memorials from citizens, representing that travelling upon the Market street Rail Road on the Sabbath day was a serious inconvenience to families residing upon the line of the Road, was productive of much evil, and a fruitful cause of Sabbath desecration; and praying Councils to prevent travelling thereon on the Sabbath day;

REPORT,—

That they agree in all the representations of the memorialists: and desire to see all travelling on the Road on the Sabbath day discontinued, as well on account of its positive as consequential evils: and with this view they have examined the subject with a desire to effect the object of the memorialists. Two remedies presented themselves—one, to cause a portion of the Road to be removed on the Sabbath, so as to render travelling physically impossible—the other, to prohibit it by an Ordinance. To the first remedy this difficulty presented itself, the City are under contract with Companies who transport the Mail, to permit them to use the Road, and any interference with their use of it, would be a violation of these contracts. They are unwilling to recommend the passage of an Ordinance to prohibit travelling on the Road on the Sabbath, because an Act of Assembly, passed 22nd April 1794, prohibits the doing or performance of any worldly employment or business whatsoever on Sunday, except works of

necessity and charity, with much more effectual penalties than could be provided and enforced by means of any Ordinance of the City. This Act contains all that is necessary to abate the evils complained of, and the Committee recommend that its provisions be enforced—and beg leave to submit the following resolution—

Resolved, That the Committee be discharged from the further consideration of the subject.

APPENDIX No. XLVI.

To the Select and Common Councils:

The Committee on Public Highways

REPORT,—

A bill providing for an alteration in the ascents and descents in Water street, between High and Mulberry streets, which they recommend Councils to pass.

They also report, that they have had under consideration the petition of sundry citizens asking for the grading and paving of the streets on the south and west sides of Rittenhouse Square, and inasmuch as said work cannot be done without a special appropriation for the purpose, they ask to be discharged from the further consideration of the subject, and annex a resolution to that effect.

An Ordinance

To alter the regulation of ascents and descents on the east side of Water street, between High and Mulberry streets.

SECT. 1. *Be it ordained and enacted by the Citizens of Philadelphia, in Select and Common Councils assembled,* That the regulation of the ascents and descents on the east side

of Water street, between High and Mulberry streets, be, and the same is hereby altered and established conformably to a plan made by Samuel Hains, Principal City Surveyor and Regulator, dated September 10th, 1845, and made part of this Ordinance.

Resolved, That the Committee on Public Highways to whom was referred the petition of sundry citizens, asking for the grading and paving of Locust street, on the south side, and Schuylkill Fourth street, on the west side of Rittenhouse Square, be discharged from the further consideration of the subject.

APPENDIX, No. XLVII.

An Ordinance

Providing for placing fire plugs in Delaware Avenue.

SECTION 1. Be it ordained and enacted by the Citizens of Philadelphia, in Select and Common Councils assembled, That the Watering Committee be authorized and directed to cause fire plugs to be placed in Delaware Avenue according to a plan and specification No. 1, prepared by Frederick Graff, Esq., dated July 2nd, 1845.

SECTION 2. And be it further ordained and enacted by the authority aforesaid, That the sum of four thousand three hundred dollars be appropriated to the Watering Committee for the purpose of carrying this Ordinance into effect.

APPENDIX, No. XLVIII.

To the Select and Common Councils:

The Committee on Public Highways

REPORT,—

That they have received a memorial from citizens, praying that Harrison and Hampton streets may be graded and paved; and representing that they have commenced and are about erecting sixty houses, and will erect many more if the streets are graded and paved.

In order to inform themselves fully on the subject, a part of your Committee have visited the premises.

Harrison street extends from Schuylkill Second to Third street, between Pine and Lombard streets, is thirty feet in

width and four hundred and seventy feet in length. Hampton street is between Pine and Lombard, and extends eastward from Schuylkill Second street two hundred and forty-seven feet, and is twenty feet wide: both have been recently laid out, and dedicated for public use. The bed of these streets is twelve feet below the regulation height, and therefore, to render them available they must be filled up to the surface of the neighbouring streets. This will require an outlay of

, which, under ordinary circumstances the Committee would not recommend Councils to authorize. But upon these streets twenty-seven houses are now erecting, and will be completed this season, but will not be habitable unless the street on which they are built is filled up and graded. Arrangements are made to erect thirty-two additional ones next year.

The income from these houses, from taxes and water rents, will in a short time repay to the City all expenses incurred in grading and paving these streets. The southwestern portion of the City is improving with great rapidity, and your Committee think that it is the duty of Councils to aid private enterprise, by placing the highways in that section in a state fit to be used. If the streets in question are filled up and graded this season, they can be paved next year; if the filling up is delayed till another season, they cannot be paved until the year after next. The inconvenience of such delay is apparent. Your Committee therefore recommend Councils to pass the annexed bill upon the subject.

The Committee also submit a bill in relation to Water street, and ask its adoption.

The Committee have also had under consideration the subject of repairing the pebble pavement in Delaware Avenue; owing to the nature of the earth which supports it, and its immediate proximity to the water, the pavement is constantly settling, and consequently requiring almost daily repair; the Committee are of opinion that the expense of keeping said Avenue in perfect order should be chargeable to the income of the fund appropriated under the twenty-second item of the Will of Stephen Girard, for the improvement of the eastern front of the City and Delaware Avenue; they therefore recommend the passage of the annexed bill in reference thereto.

An Ordinance

Relating to Water Street.

SECT. 1. *Be it ordained and enacted by the Citizens of Philadelphia, in Select and Common Councils assembled,* That the Committee on Public Highways be, and they are hereby authorized and directed to pay to William Patterson the sum of one thousand five hundred dollars, and to John M. Kennedy the sum of four hundred and thirty-three dollars and thirty-three cents, being the amounts awarded to them respectively as compensation for injury done to their property situate on the east side of Water street, between High and Mulberry streets, by the laying out of Water street anew, by a Jury appointed by the Court of Quarter Sessions, by their report filed in said Court on the 9th September, 1845.

SECT. 2. *And be it further ordained and enacted by the authority aforesaid,* That the said Committee be authorized and directed to pay to Levi Taylor the sum of two thousand five hundred dollars, which amount he has agreed to accept as compensation for injury done to his property, situate on the east side of Water street, commencing at the distance of ninety-eight feet nine inches from the south side of High street, and extending in front on said Water street, southwardly, fifty-three feet, by taking a portion thereof from the front on Water street by the laying out of Water street anew.

SECT. 3. *And be it further ordained and enacted by the authority aforesaid,* That the sum of four thousand four hundred and sixty eight dollars, out of the income of the fund appropriated under the twenty-second item of the Will of Stephen Girard, for the improvement of the eastern front of the City and Delaware Avenue, be appropriated to the expense of carrying into effect this Ordinance, and for paying the expenses of the Jury before mentioned; to be paid in the manner that appropriations for Delaware Avenue are directed to be paid in the several Ordinances relating thereto.

An Ordinance

Making an Appropriation to the Committee on Public Highways.

SECT. 1. *Be it ordained and enacted by the Citizens of Philadelphia, in Select and Common Councils assembled,* That the sum of twelve hundred dollars be, and the same is hereby appropriated to the Committee on Public Highways, for the purpose of gaading and regulating Harrison and Hampton streets.

An Ordinance

Making an Appropriation to the Committee on Public Highways, for the purpose of repairing the pebble pavement in Delaware Avenue.

SECT. 1. *Be it ordained and enacted by the Citizens of Philadelphia, in Select and Common Councils assembled,* That the sum of one thousand dollars, out of the income of the fund appropriated under the twenty-second item of the Will of Stephen Girard, be appropriated to the Committee on Public Highways, for the purpose of repairing the pebble pavement in Delaware Avenue: said appropriation to be paid in the manner that appropriations for Delaware Avenue are directed to be paid in the several Ordinances relating thereto.

APPENDIX, No. XLIX.

To the Select and Common Councils.

The Committee on Public Highways

REPORT,—

That they have made further amicable arrangements for opening Water street anew, in accordance with the Will of Stephen Girard, and herewith submit a bill in reference thereto.

The Committee have also considered the petition purporting to be signed at the request of the owners of property on Elfreth's alley, asking an alteration in the name of said alley.—The Committee have ascertained that this paper was an imposition on Councils, that the names were inserted without the knowledge or authority of the parties interested, who are opposed to any change in the name of said street. The Committee therefore ask to be discharged from the further consideration of the subject.
